Student Science Learning Questionnaire

Population 1

=====

Directions

This section contains statements describing activities which take place when students are learning science.

Please state what takes place when you are learning science by circling one of the letters:

- O if it **often** takes place
- S if it **sometimes** takes place
- N if it **never** takes place

Please do not turn the page until asked to do so.

		Often	Sometimes	Never
1	We use a textbook for our science lessons.	0	S	N
2	We use library books for learning science.	0	S	N
3	We choose the topics we want to study in science.	0	S	N
4	The teacher uses our ideas and suggestions when planning science lessons.	0	S	N
5	We watch the teacher do experiments during our science lessons.	0	S	N
6	The teacher makes science lessons interesting for us.	0	S	N
7	During science lessons we copy the teacher's notes from the blackboard into our own books.	0	S	N
8	We have tests on what we have learnt in science.	0	S	N
9	The students themselves do experiments as part of the science lessons.	0	S	N
10	The class breaks into small groups of students to do experiments during science lessons.	0	S	N
